Tanusha Mittal

Due to increased technology adoption and the impact of the
COVID-19 pandemic, more important data is being stored on
different networks. This means a larger amount of data is
now **vulnerable** to **unauthorized access**. As we continue to
grow and rely on technology, we need to ensure that the data
we are storing on these networks are **secure** and **Password
Management** is an excellent first step.

SOLUTION

Riya Bisht,
2019045, Mentor-
Tanusha Mittal

Password Management allows users to **safeguard** their credentials against unauthorized access to accounts and services.

SETTING UP ANDROID DEVELOPEMENT ENVIRONEMNT

▶ *Flutter*
▶ *Firebase* ## Setting up FireBase:
